Fuzion 🕻

The EBOX Vaporizer utilizes a precise temperature control system that allows the user to control the vaporizing temperature with accuracy. Turn the temperature up for thicker vapor production or turn it down for a healthier approach. Just set your desired temperature and the EBOX will reach vaporizing temperatures within seconds. No waiting around. SMART MOUTHPIECE The herbs cup has been fixed in heating chamber. When you need to use wax & e-liquid cup, put it in herbs cup directly. Material of heating cup is stainless iron and keeps pure flavor.

Vaporizers

Randy's PILOT is a portable concentrates vaporizer, the perfect pocket-sized device for on-the-go. In 4 seconds it heats to 480°F, but can reach temperatures as high as 840°F. Use your included dab tool/ cover to be in full control of your vaping experience. The coil is recommended for 18w or lower. The max wattage for the atomizer is 20w.

PILOT VAPORIZER

Randy's Trek is a high-end, combustible vaporizer intended for use on dry herbs. The pure ceramic dish of the Trek is deeper than your average vape pen. Randy's Trek uses a pure ceramic baking chamber, rather than an exposed coil, to give you an evenly distributed hit across all of your herb. The baking chamber of the Trek heats up to 428°F in just 3 seconds!

TREK VAPORIZER

Place the deep ceramic dish in your TREK to pack in your favorite dry herb. The TREK Ceramic deep dish is approximately 1 centimeter deep.

TREK CERAMIC GLASS DISH
