31 Years! What a long strange trip it's been.

As one of the most famous and overused lyrics of Grateful Dead songs states, "What a long strange trip it's been". This can be applied to many things in life I guess, but for Liquid Blue is has been LONG all right. It just doesn't seem like it's been 31 years since we started dyeing and printing shirts in a tiny 15 x 20 ft room in Plainville, MA. It has been a TRIP and that's for sure. Who knew our fans would one day be spread all over the world and who knew we would be still cranking out great art and great shirts so far down the road..? We were just looking to get something off the ground and feed our families. But this is where we split from the song.. It has not been that STRANGE at all. In fact, while it's had its share of surprises and plenty of changes, it hasn't been odd at all. In fact it's been comforting and satisfying to know that our fans love our work so much and for that we are so, so very thankful. Yes.. In a word, GRATEFUL..!
